

Upgrade to an

Energy Efficient Heat Pump

uses up to 80% less energy

Benefits of Upgrade

- *Uses up to 80% less energy*
- *Eco – Friendly (reduces emissions)*
- *Longer Service Life*
- *Very Low Operating Cost*
- *Extremely Quiet*
- *Low Maintenance*

With Green On Pty Ltd, you will get:

- *Free Delivery & Installation*
- *Up to 7 years warranty on tank*
- *Up to 5 years warranty on compressor*

Product Specification Sheet:

Product Name	Hurricane
Model	EG-260FR
Design	All In One
Tank Capacity	260L
Work Type	Residential
Heating Capacity (Watts)	3015
Input Power (Watts)	670
COP	4.5
Recovery Rate	64.8
1st Hour Delivery	279
Element	No
People @50lt/day	3-6
Condenser	Micro-Channel
Configuration	All In One
Fittings	20mm / G 3 / 4
Sound Level (dB)	50
Refrigerant	R290
Daily Water Temp (°C)	65
Once Weekly Water Temp (°C)	N/A
Max Water Temp (°C)	75
Tank Size (mm) H x D	2115 x 600
Heat Pump Size (mm) H x W x D	Build Into Tank
Operating Range (°C)	From -7 to +43
Power Supply	220-240 / 50
Designed	Australia
Condenser Connection	-
Ocean Mark	OMK32183_04
Water Mark	WM-032183_04
